## Hi-Potassium C30

A high analysis citrated liquid potassium. Suitable in all areas of agriculture as an ideal replacement for solid sources of K

An excellent plant available foliar potassium, which, is quickly adsorbed by living tissue, making it great for high production systems and/or deficient scenarios. Foliar applications of Hi-Potassium C30 removes unnecessary and harmful inputs to your soils, such as chlorides and salts, in a cost effective K format essential for all growing crops.

### Benefits

- ✓ Cost effective and powerful available format of Potassium.
- ✓ Potassium is required in nearly every aspect of plant growth.
- ✓ Improves your nitrogen use efficiency and plant vigour.
- ✓ Improve cell wall and tissue structures.
- ✓ Increase the production and translocation of sugars, and protein synthesis.
- ✓ Reduce negative inputs on your soils.
