Maxi-Foliar VinPK

(0 - 6- 11)

The premium foliar fertilisers specifically designed for viticultural requirements

Maxi-Foliar VinPK is purpose built for viticulture, specifically for greater control over N inputs. As part of our premium range foliar fertilisers, it contains a powerful and balanced blend of PK, chelated trace elements and amino acids, at a neutral pH to ensure maximum plant uptake with minimum stress

Benefits

- ✓ Growers can rely on Maxi Foliar VinPK to provide a comprehensive range of crop nutrients, allowing for the control of vine energy and vigour to ensure product quality.
- ✓ A cost effective tool for quick correction of nutrient deficiencies and improving brix levels.
- ✓ A balanced application of essential elements helps to reduce the risk of crop damage from disease, pests and frost.
- ✓ The Maxi Foliar range is compatible with the majority of agro chemicals and other nutrient products.

TYPICAL ANALYSIS	G/L	% W/V	% W/W
Phosphorous (P)	60	6.00	4.72
Potassium (K)	110	11.00	8.66
Plus Fe, Mn, S, Mg, Zn, Cu, B, Co, Mo, amino acids and uptake enhancers			

pH	7.2-7.4
SG	1.23

APPLICATION RATES

Foliar Application	Rate/Ha	Water
Horticulture	2-6L	400-1500L
Orchards (stone fruit excluded)	2-6L	400-1500L
